WORK EXPERIENCE

Software Development Engineer (Intern) **Sept 2025 — April 2026**

Pratisthan Software Ventures Bangalore (On-site)

- Developed backend solutions for **UK payment systems** (UKFPS, BACS, and CHAPS) to support **high-value transaction** processing
- Implemented **PACS.004** message mapping and return payment logic to enable accurate and reliable transaction reversals
- Built **network directory validations** and performed **end-to-end testing** to ensure secure, compliant, and robust payment workflows

Web Development (Intern) **July 2024 — Dec 2024**

One Snack Remote

- Developed and optimized **5+ responsive web pages** for a gourmet snacks platform using **modern frontend technologies**
- **Collaborated** with a cross-functional team of 12 members to implement **UI features** aligned with product and branding requirements

PROJECTS

CompileX | **React, Judge0 API** **Live** | **GitHub**

- Built a web-based online IDE supporting **C++, Python, Java, and JavaScript** with real-time code execution using the **Judge0 API**
- Implemented multiple editor themes, input/output console, source code upload and download, fullscreen editing, and persistent multi-playground storage using Local Storage

Prescripto | **React, Node.js, Express.js, MongoDB, Cloudinary, EmailJS, Tailwind CSS** **GitHub**

- Built a full-stack **MERN doctor appointment** platform with **JWT-based** authentication, REST APIs, and MongoDB to enable secure user management and efficient appointment booking workflows
- Designed **role-based dashboards** for patients and doctors to manage profiles, schedules, and appointments, providing a streamlined and intuitive user experience

ILM KOSH | **React, Node.js, Express.js, MongoDB** **Live** | **GitHub**

- Developed a full-stack MERN online book platform for discovering, publishing, and managing digital content with secure **user authentication** and dynamic search functionality
- Built **RESTful APIs** and integrated MongoDB to enable efficient data handling and seamless content management across the platform

CODING PROFILES

1. LeetCode (750+ Problems) 2. CodeChef (Highest Rating: 1510, 2 stars) 3. HackerRank (5 stars C++)

SKILLS

Programming Languages	C++, C, C#, Java, JavaScript, Python
Web Tech & Frameworks:	HTML, CSS, NodeJs, ReactJs, Redis, RabbitMQ
Data Bases	SQL and NoSQL
Aware:	Git, GitHub

EDUCATION

BE CSE: Chitkara University, GPA: 8.7/10 **Sept 2022 – Present**

Coursework: MERN, Data Structures and Algorithms, OOPs, DBMS, Operating Systems, AI/ML, System Design

ACHIEVEMENTS

- Winner of Nexus — UI/UX Workshop and Competition Certificate
- Secured 1st Runner-Up (2nd Place) in Code Slam: Hackathon and Codeathon, competing against 110 teams. Certificate
- Advanced to Round 2 of Adobe Gensolve, ranking among the top 5 percent of participants. Certificate
- Solved 1200+ problems across platforms including LeetCode, GeeksforGeeks, CodeChef, and HackerRank.
